

THE RESULT OF MORAL DEGRADATION

We find that there is no more fear of the law, or fear of God, around us!!

This is because most of us doubt the very existence of God!!

- Today, children getting addicted to even video games go to the extent of murder, to get what they want from their parents!! —

Daily reports show:

- Incidents of children getting violent when refused their gaming consoles have been reported from Mumbai, Philadelphia, and Saudi Arabia in the recent past.
- Children are rushed to the hospital by their parents, who fear that they are suffering a stroke or brain trauma, as they were not responding to their surroundings!
- Doctors attribute it to too much use of Mobile phones.
- Fatigue and loss of concentration are some symptoms that parents need to watch out for if their children are spending too much time on gaming activities.
- Young men in the name of game tournaments use the internet to promote their base interests of sex and perversion. One never notices when they get caught in the web of this sexual harassment till they have been well drowned in it!
- Even the sports field is not exempt from these base activities.
- Drug addicts have led to the creation of flesh-eating zombies: Following a recent string of attacks around the country, involving people taking synthetic drugs, known as bath salts. They attack victims and eat their flesh!!!

In Ohio, Senator Rob Portman has introduced a ban on the drug to combat the growing epidemic!!! These synthetic drugs make people lose sight of their own humanity, spurring reckless, horrific acts across the country. The most recent of such attacks is when a police officer in Miami shot and killed a naked man on the side of the causeway, who was eating the face of another naked man!!!!—Source Chris Moody; Yahoo news on 27-6-2012

Why is all this?

Is it not due to a lack of moral education and a lack of care from parents? Parents have no time!! Today's parents themselves were not taught morality in schools. Nor do they have moral values.

The schools have no time for Moral instructions. When we approached some schools, this was the answer we got!! If at all they keep moral classes, there is only a lame interpretation of morality:

Do not tell lies, do not rob, and do not cheat, but the very Essence of the fear of the Almighty, which should act as a deterrent to all these sins, is absent.

And when they ask, why should we not do all this, there is no clear answer.

When there is no God element in our lives, why are we prohibited from doing what we like and feel good?

The result of the absence of awareness of GOD is seen in the West:

When the West (America) ladles out

Millions of Homosexuals leading to AIDS and VD

More than 50,000,000 drunkards

More than 30,000,000 heavy drunkards

3% of the families have incest with their daughters/.

Rape and Murder are rampant:

Every 3 seconds, a rape takes place in the USA!

Darwin's theory has only helped 'the survival of the fittest'. The result is fights and murder and all the evils of Society!!

AND: They are out to save us.

They have come to advise us on how to save our economy and culture!

We Indians are, or rather were, very God-conscious.

We Indians have our shortcomings!

We have racism; we bash each other for little things,

Disagree in most matters,

But when it comes to culture, ours is the best!

None can beat our social buildup

None can even compete with our bond within family units.

None can beat our freedom of speech!!

By following the West, we are fast losing this background, which alone can act as a deterrent to evil in Society.

Let us not lose this rich culture to the West, who have nothing to stand on but a lot of arms and ammunition, and look for means as to how to save their economy by its sale!!

The fear that GOD is watching and we are answerable to HIM, whatever we do openly or secretly: It is this concept which will help people restrain themselves from wrong.

Moral education of being answerable to GOD Almighty is the need of the Hour.

The need of the hour is Moral education. The need of the hour is awakening to the Truth of the existence of GOD. Be it Muslims, Hindus, or Christians.

Instead of preventing Madaras, gurudwaras, temples, and churches from imparting moral education, let our government ensure that all religions do their duty in imparting moral values to their communities.

Let us, at the same time, discard superstitions and hatred for other religions.

Instead of hating other religious practices, let us learn to respect them, though we need not follow them.

Instead of keeping our teachings secret, let us be open as to what we teach, so that there is no suspicion or doubt about our intentions. This will also help propagate what true Islam is:

“A religion of peace and total surrender to the Supreme Creator.”

This is the only way to save our country from ruin.

Let us awaken the sleeping conscience within us!!

Let us reach out to our children and save them from perversion, which is fast ruining their future.

Let us make them realize that discipline, character, and uprightness are still something to be cherished if we must bring the country forward. Instead of fighting each other, if we concentrate on educating the good points found in our religions—

- All religions teach the same morality: Do good deeds, and avoid evil, GOD is watching you, whatever you do, etc.
- All religions teach to hate evil and race for good deeds.
- Let us understand that:

Secularism is not forcing others to one's view, but

Secularism allows others to have their own view on matters of religion.

Let us stick to the common factors of fear of God and dislike of evil.

Let us teach our children to be aware of the element of God present in every human being in the form of conscience.

Let us teach our children not to kill this conscience, which will ultimately lead to their ruin.

Dr. Thahira Iqbal.
