

## **EDUCATION IS FOR A LIFETIME**

Age is not a barrier to education,

It is the lack of willpower that deludes

Us towards the world's beatification

Just like iron rusts when left unused,

Our brain also gets rusty if not used.

Make full use of your faculty and learn,

For Allah asks us in various verses of the Quran.

“Have you not travelled through the earth and wondered

Over the various creations of Allah, pondered?”

Today, this knowledge is at our fingertips in the form of online Courses.

Why not take advantage of this opportunity to access them from various sources?

Even two subjects per semester, it allows us to learn,

At our convenience, we can complete the course and earn.

Instead of wasting your precious time, to the Idiot box glued,

Is it not better to gain knowledge about what Allah has proved?

Remember, learning is far better, for it helps gain appreciation,

It gives you more knowledge, honour, and satisfaction.

The love of Allah, when we strive in HIS way:

Whenever we want, we can pursue our studies; night or day!

Nothing comes easy, and Allah will surely reward us,

Gain knowledge and implement and propagate Islam: Allah tells us.

That is the need of the hour.

Remember, the Last Day is not very far.

May Allah Ta'ala guide all of us towards the straight path.

And, help us propagate the true way, to save us from HIS wrath.
