

Fragrance of Flowers:

The fragrance of Flowers

It cast a spell on me,

Spreading fragrance all around for free

It raises the spirit to ecstasy.

Exhibits its beauty for all to see,

It shows no partiality in showing hospitality

Spreading love and Tranquility.

To one and all, Rich and Poor,

It brings happiness for sure.

Let us be like the flower by our behavior,

Thus, peace will reign in the land

Where to one another will give a hand

To help in their sufferings and tribulations,

which Allah gives us as an examination,

to see who among us reaches high in graduation.

May Allah keep us united

And prevent us from being divided

AMEEN.
